In view of the prevalence of Malaria cases in the Town, Anti-Malarial operations as in the previous years are started in the Municipality. I request that the Government may be pleased to sanction the grant of Rs.432/- for entertainment of six coolies each at Rs.12/- per mensem for six months for the weeding of Raya & Basavanna Channels and Tributaries.

P.T.O.

I also request that the Government may be pleased to sanction the usual grant of one third cost of the Paris-greening operations for the current year and the succeeding years, taking into consideration that the financial condition of the Municipality is so poor that it cannot be in a position to bear the entire cost of the operations, nor, it is desirable to allow the disease unchecked without these measures adopted.

Sir,

2. The initial clearance of the Roya and Basavanna extension channels free from weeds was carried out in 1935-36 and since then maintenance is being attended to by the municipality and an annual grant of Rs.432/- is being paid at the end of the year. As these channels belong to the Public Works Department, their upkeep in a sanitary state is being borne by Government. The grant for the current year is recommended. Necessary provision exists in the current year's budget.

3. But it may be pointed out that as the above work alone will not give freedom from malaria to Hospet, the Municipal Council should arrange to provide for adequate

antimalarial measures in other breeding areas of the town.

The municipality may be informed accordingly.
